

BEOBAL FP6 project

External exposure

training seminar

**Prof. D.Sc. František Spurný,
NPI AS CR, Prague**

“External exposure to natural radiation”

14 Feb 2006,
10h00, Hall 300,
INRNE

Sources of the external exposure to natural radiation

- Radiation originating in Space
- Terrestrial sources of the external exposure to natural radiation

14h00

Dosimetry methods. Calibration

- Dosimetry methods to estimate external exposure to natural radiation
- Calibration

15 Feb 2006,
10h00, Hall 300

External exposure to natural sources – some examples

- INRNE BAS and NPI-DRD AS CR collaboration
- Overview of the external exposure to natural radiation in Czech Republic
- Region of increased natural radiation background
- Onboard aircraft exposure
- Onboard spacecraft exposure

BEO Centre of Excellence and BEO Integrated Environmental Centre
studies of external exposure to natural radiation.

Round discussion.

External exposure seminar is organised in
the framework of **INRNE BEOBAL FP6**
EC project INCO-CT-2005-016663
